Jeff Out Fishing.

Jeffries goes fishing, and I went fishing I have proved this to my own satisfaction-there is no training or boxing done on these trips that the boilermaker takes. They are inspired by his desire to get away from the crowd. The excuse for taking the fishing trip to-day was that he had done a hard day's work Wednesday, and with the contest so close did not need to drive at it again to-day.

But I am afraid that Jeffries is putting on weight in the last few days. He looks about eight pounds heavier than when I came here, but in this hot climate it is easy to reduce, and he probably can pull that weight of him are think the results of the control of the contro that weight off him any time he takes a notion between now and the day of the But I still insist that he is not doing

enough. I would give him every day just as much as he did yesterday, and twice a week I would put him through three times that much.

If he wins this fight, it is because of the long preliminary work he did and because he is a tremendous man, with 'he power to sweep over every obstacle; out it will not be because of the hard work he has done in the closing days of
